Summary

Product designer and manager with 13+ years across agencies, enterprise innovation labs, and long-term platform partnerships. Leads product strategy, research, and design systems for complex products in automotive, agriculture, government, manufacturing, and healthcare. Now runs product and design for voice and text AI at STELLA Automotive AI.

Experience

Product Manager, STELLA Automotive AI February 2026 to present

Remote · Running both product management and product design for the platform.

- Lead product strategy and execution for AI-driven customer engagement across voice, text, and digital channels for dealerships.
- Partner with engineering, AI/ML, and operations to turn product vision into a roadmap, then design what gets built.
- Design the STELLA Insights analytics experience end to end across desktop and mobile, including alerts, conversations, and user administration.
- Lead conversational design for STELLA's voice and text agent, defining how it speaks and behaves with customers.
- Develop the STELLA design system so designers, engineers, and AI agents can all apply it.
- Use real-time performance data to refine conversation flows and improve conversion and efficiency.

Product Design Lead, MRM//McCann July 2019 to December 2025

Detroit, MI · UX Architect from 2019, Senior UX Architect from 2021, and Product Design Lead from 2023.

- Led UX on BASF SalesX as it grew from a pilot of 40 users to 800+ sales professionals.
- Led product design on New York Lottery's Digital Playslip, sign-on, and CRM programs.
- Led research and design for the City of Raleigh website redesign.
- Worked across Honeywell, Fujifilm Instax, Valero, General Motors, and new business pitches.
- Co-created UX Jam Sessions and a Figma 101 to 301 series open to every department.

UX Strategist and Designer, GM Lab313, One10 Marketing, formerly Aimia 2015 to 2019

Troy, MI · Joined as a contract designer in September 2015. Converted to full-time within 5 months.

- Core member of GM's Lab313, running empathy research, ideation, and rapid prototyping for digital retail products.
- Tested 13 hypotheses across 4 MyCarDrive features in 10+ customer interviews, then turned the findings into prototype changes.
- Designed the customer and dealer experience for Test Drive My Way, Chevrolet's at-home test drive pilot.
- Ran dealer workshops that defined requirements for chat ownership, appointment routing, and data sharing.
- Wrote the business case for design-thinking training, won approval, attended, and taught it back to the team.
- Designed dealer playbooks, sourcebooks, and Voice of Customer materials across four GM brands.

Junior Art Director, Publicis 2014 to 2015

Indianapolis, IN

- Led visual work for TriHealth, Hancock Health, and Gleaners Food Bank.
- Won a Silver ADDY and a Healthcare Advertising Bronze.
